

Nothing Works Better Than Miniature Therapy Horses.

WHAT WE DO ?

01 Facility Visits

Our therapy horses are trained to handle almost any situation. They are used to walkers, wheelchairs and the buzzes & beeps of medical equipment.

02 Home Visits

We understand that some individuals prefer to live at home and have our therapy horses come to their location. That is not a problem for us. We can even manage steps and narrow hallways.

03 Veterans Programs

Our veterans are extremely important to all Americans and we have various programs ranging from therapy visits to actual training of veterans to work with the horses. Anything is possible.

04 Field Trips

Some people want to get out and take a field trip. Why not come visit our barn and hang out with the horses? We have therapy days, picnics and activities possible for any size group.
